The Surgical Kit

Don’t let the compact size fool you. This little surgical kit is a total badass.

Here’s a video we made to introduce you to this hard-hitting kit:

Coming Soon
The Ninja Restorative Kit

With this kit you can basically restore any implant ever. And you can get yourself out of trouble if you encounter broken or stripped screws.

Here’s a video that introduces you to this bad boy:

Here are links to the videos on how to use them:

- Open Tray
  - https://youtu.be/Xmz1Vjs2m8g
- Closed Tray
  - https://youtu.be/RvzTTTjBBFo
The Healing Abutments

Our healing abutments come in 3 sizes. Fat boys for molars, and a medium width for all others. The mediums come in long and short.

Here’s a video that shows the basic designs:
